DETAILED ACTION

Summary

On January 19, 2006, an Office Action was sent to the Applicant rejecting claims 1-12. On May 19, 2006, the Applicant responded with arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Nikander (6,029,151), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed May 19, 2006 have been fully considered but they are not persuasive.

The Applicant argues that Nikander does not disclose a subscriber registered in the mobile network or Internet, and no Internet connection is already established. In response, nowhere in any in the claims does the Applicant claim a subscriber registered in the mobile network or Internet, and no Internet connection is already established. Thus, the Applicant is setting forth an argument that is narrower than that which is claimed. Nonetheless, Nikander discloses allowing the user to make cashless

payments using electronic money. The method disclosed by Nikander is set up using an Internet system. Therefore, the Examiner is interpreting Nikander as reading on the limitations substantially as claimed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
